

DOJ PROCUREMENT ADVISORY

June 2011

#2011-11

Contractor Performance Assessment Reporting System (CPARS) Version 3.7.0

CPARS Version 3.7.0 has been successfully deployed. There have been a significant number of changes made on various CPARS screens that are immediately noticeable to the CPARS/ACASS/CCASS/FAPIIS end user. A driving force behind many of the changes made in this release was to make CPARS less Department of Defense centric regarding the terminology and practices used since CPARS is the single government-wide feeder system to the Past Performance Information Retrieval System

Links to CPARS release notes and other helpful information can be found at <http://www.cpars.csd.disa.mil/allapps/cparsrel.htm>. Following is a list of all the enhancements made in this CPARS Version 3.7.0 release:

- Numerous Department of Defense (DoD) and US Army Corps of Engineers (USACE) references have been removed from the online help.
- References to DODAACs have been removed.
- APM has been renamed to Organization.
- The Command Point of Contact access level has been renamed to Department Point of Contact.
- The Senior Command Official access level has been renamed to Agency Point of Contact.
- The Small Business Utilization questions regarding comprehensive and commercial subcontracting plans have been removed.
- In the CPARS module, the Service/IT/Operations form has been renamed to Nonsystems.
- In the CPARS module, on the Systems form, the color ratings have been changed to adjectives. (See DOJ Procurement Advisory 2011-07)
- In the CPARS module, the Report Types have been changed to Interim, Final, and Addendum. (See DOJ Procurement Advisory 2011-07)
- Completed Out of Cycle CPARs have been archived. In process Out of Cycle CPARs have been converted to Interim reports.

- In the CPARS module, references to Code have been removed from the signature blocks.
- In the CPARS module, Federal Supply Code (FSC) has been renamed to Product or Service Code (PSC).
- In the CPARS module, Phase of Acquisition has been removed from the Program Title field.
- In the CPARS module, the Assessing Official can now close a CPAR for which the contractor did not respond.
- In the CPARS module, DoD Business Sector/Subsector has been renamed to Business Sector/Subsector.
- In the CPARS module, the DoD Transportation business subsector has been renamed to Transportation.
- In the CCASS module, the Liquidated Damages field will now accept a zero.
- The DSN phone number field has been removed.
- The CPARS web site has been updated to <https://www.cpars.gov>.
- In Focal Point Access Authorization, the preview screen has been removed.
- In Department POC Access Authorization, the preview screen has been removed.
- For Senior Contractor Representative users, the Business Sector filter has been removed from View/Print Completed CPARs.
- The email to users whose accounts are eligible for deletion following 2 years of inactivity has been rewritten to provide better instructions.
- In the FAPIIS module, a record type for DoD Determination of Contractor Fault has been added.
- Fixed an issue with the calendar date selector for dates past 2032.

Contact

Please contact the PPIRS/CPARS/FAPIIS support desk on (207) 438-1690 or via email at webptsmh@navy.mil if you have any questions regarding how to report actions to CPARS.

For information regarding this Procurement Advisory, please contact Dennis McCraw on (202) 616-3754 or by email at dennis.mccraw@usdoj.gov.
